Lice Prevention Tips

Here are some tips to help prevent your child from getting lice.

- Tie hair up in ponytails or braids
- Do not share hats, combs or other items that touch the head
- Do routine head checks at home. Comb out any eggs found in the scalp
- Preventative Spray: Mix Mint Listerine and Water. Spray on shared items (hats, headphones, etc). Can also buy spray at Target
- Inform the teacher if your child has lice

What's Coming Up

We have started our exploration of the Ocean! We had a great time with our Winter theme and are ready to move onto bluer seas! This is a great opportunity to talk to your child about sea life and how they differ from animals that live on land! Differences such as how they breathe, the foods they eat, or their fins/tails! Also, Parent/Teacher Conferences will be on Wednesday, April 18th. More information, including a sign up sheet, will go home Monday April 9th. Your attendance is crucial to your child's education!
