Physical Education Corner

Ms. Militello

Hello Families!

Happy Spring! I hope you are able to get outside and get some exercise as a family as the weather warms up. Daily walks to a park, or even the store, are a great way to get your family moving.

Per the letter that went home, all students are in the classroom the month of April working on age-appropriate family life and sexual health education. Be sure to ask your children if they have any questions. An open dialogue between child and parent is the best way to ensure your son/daughter has accurate information.

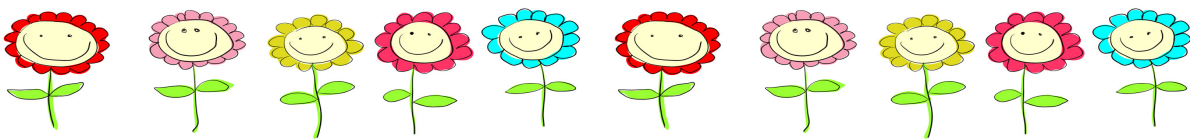

World Language and Cultures

The Book Fair is HERE! Scholastic Book Fair will be at Chase April 16-23. Save up to buy books and support our school!

¡La Feria del Libro está aquí! Feria del Libro Scholastic estará en Chase los 16-23 de abril.

with Ms. Kornack

In STEAM this month, intermediate and middle school students are working on finishing their stop-motion animation projects and constructing their towers. In primary we are working on extending the learning from our school-wide egg drop, to design protectors for our moon rovers to land on the moon! We will drop them two stories, with the goal that they don't break!

Thank you for a great turnout at our family night, it was fun to engage in STEAM activities with you on Pi Day!

Mr. Santana ---- Technology April 2018

K-2nd grade students will continue to review their Google accounts and learn how to access their email and Google applications. Students will continue to explore computer science and begin to interact with the coursework presented Tynker.com. All classes will review how to be a good Digital Citizen (Cyber Safety and Cyber Bullying).

3rd-8th Grade:

Students will continue to work with their respective computer science courses in Tynker.com. Students in grades 4th-8th will begin work on a Cyberbullying Stop Motion Video. At the end of this project a link to all the student's final projects will be added to the school's website. Students should refer to the work assigned in their Google Classroom home page.
